Various items presented.

White Rose Primary was seeking a representative from the Community Council for its Governing Body. Cllr Griffett was nominated.

Donations to the primary schools were requested. A donation of £500 each was proposed and agreed.

Donation for local festive lighting displays were requested. The arrangements for prior years were discussed, and various suggestions raised. Members agreed that every community should have some support for providing some festive cheer in such difficult times. Various options were discussed such as supporting a tree and lights or giving assistance for lights if there is already a tree.

One member proposed that there should be support for one tree per community and additional trees would not be supported. This was put to the vote, as follows

Funding more than a tree – for 4, against 6. Accordingly only one tree per community will be funded.

Discussions took place in relation to the value of funding that would be provided.

One member proposed the following

If there is a tree already £100, if there is no tree £200.

This was unanimously carried.

A letter was received from New Tredegar Rugby Club. Cllr D Dauncey declared an interest as he is a coach of the mini /juniors section. Cllr Roderick declared an interest as a member of the club. Cllr Mills declared an interest as her son plays.

The letter requested a donation to the club for a container and its transportation to site to store lights that had been purchased. There was a shortfall in funding amounting to £3332 between what had been provided by other funders and the total cost of the unit and transport. This was agreed.

A donation of £134 was requested for the festive display at St Dingats. This was approved.

A request was received from Phillipstown Residents Association for lights on their living tree. It was agreed that the contactor would be contacted for a quote but it might be very late to do anything for this year, however it was agreed that if a quote was received the chair would be able to approve. For equivalence a similar arrangement to Brithdir would be considered.

3968 AOB

Several members reported that issues had been noted with a number of festive lighting motifs. These had already been notified to the clerk who had been in touch with the contractor.

It appears that there were queries on 7 columns. However it wasn't clear if it was a fault with the motifs or with the supply on the columns. If it was the latter this would be the responsibility of CCBC to check /repair whereas faults with motifs would be the community council/the contractor's responsibility.

There would also appear to be no motifs at all in Tan lan/Queens square.

The contractor had passed a list of the columns onto the clerk and these had been checked and the faulty motifs/columns returned to them.
